5. Wall board enough thickness

Our wall board material is Insulation rock wool, fireproof, and thickness is 70mm.

Other supplier usually us 50mm thickness wall board.

6. Frame more thickness frame, pipe 1.8mm is more thicker than other supplier. And we use galvanized concave convex pipe, This pipe machine we bought back for \$300000. Use this pipe can arrive 99% dont rain leak. And other supplier us 1.3mm generally pipe. So our

house actual weight can arrive 1.4Ton, Other supplier weight just 1.2Ton.

7. Fram all galvanized pipe. Many supplier us black pipe or main pipe use galvanized. That if meet rain very easy rust. Our pipe us all galvanized pipe.

8. Corrugated Roof

We use corrugated roof looks more beautiful and when rain the corrugated roof will let rain flow to land quick .

9. Out side wall use Orange peel board.This outside board will let house more clean and beautiful and stright. And more strong. Other supplier use very thin galvanized sheet instead orange peel board. That will make house very easy to sag a hole when encountering impact.

10. Good package

Many cheap price house dont have package. So when loading it very easy drop painted. We use blue plastic film to pack and protect the frame. Make the goods received better.

11. Looks beautiful and detail do more better compare to other supplier.
